Announcement of HITANO new products

Dear valued Customers:

HITANO is proud and happy to announce new series product release!

Please visit our official website to check more about our new product information:

Product Type Automotive Chip Resistor – Thin Film Type

HAR General Purpose
HARM High Stability 0.02%
HART High temperature 175°C
HARTP High Power
HARHV High Voltage 2KV
HTAR Tantalum Nitride

Product Type Automotive Chip Resistor – Metal Foil Type

HMF Metal Foil

Product Type Automotive Chip Resistor – Functional Type

HCS Current Sensing
HPWR Pulse Withstanding
HCRG Green
HASG Green Anti Sulfurated

Product Type Automotive Chip Resistor – Network Type

HCN General Purpose
HAS Anti Sulfurated
HCNF Flat Array

Product Type Automotive Chip Resistor –MELF type

HCSRA General Purpose
HCSRП High Voltage 2KV

This innovative product not only offers excellent reliability, but also great longevity, which is sure to satisfy your high quality requirements. The diverse range of solutions will help your business meet the trends of electrolytic market while improving product efficiency. With this new product, HITANO have confidence that can make your business run more smoothly and save more valuable time and save more costs.

With the rapid advancement of science and technology, plus the importance of environmental awareness, HITANO will continue to innovate and provide the most advanced product solution to your company and never have the end. We deeply hope we could create more and more chances and better future together!

Yours Sincerely

For and on behalf of
HITANO ENTERPRISE CORP.
